Institute of Applied Statistics, Sri Lanka

A Seminar on

Sample Size computation of a Statistical Study

- Duration:** One day – Tuesday, 11th February 2014
- Venue:** Seminar Room, Institute of Applied Statistics Sri Lanka,
Level 2, Professional Center, 275/75, Prof. Stanley Wijesundera Mawatha, Colombo 7
- Time:** From 9.00 am to 5.00 pm
- To whom:** Managers, Statistical Officers in public or private sector business and industrial organizations,
Project Planners, Researchers, Research students, Medical Researchers.

----- *Registration for this seminar is now on* -----

Apply early to avoid disappointment as the seats are limited.

Resource Person: Course will be conducted by Prof. S. Samita, Faculty of Agriculture, University of Peradeniya and Mr. Wimal Nanayakkara, Former DG, Dept. of Census & Statistics.

Apply in writing (by post or email) followed by payment of course fee either by cash or by a cheque drawn in favor of "Institute of Applied Statistics Sri Lanka" to the **Course coordinator Institute of Applied Statistics, Sri Lanka, The Professional Centre, 275/75 Prof. Stanley Wijesundera Mawatha, Colombo 07** as early as possible.

Seminar Fee: Rs. 3, 000/- Net per participant

This includes course material and morning and evening refreshments and Lunch

Any organization that nominates between 5 to 9 participants will receive a discount of 5% and organizations that nominates over 10 participants will receive a discount of 10%

Overall Course Objective:

Finding the size of a sample seems to be the most difficult area for a researcher who is not thorough with Statistics. Taking the sample size as 10% or 30 for any study as most people do will end up with an incorrect result as the sample may not represent the population. This seminar is intended to give you hands on practice in determining the sample size in any situation.

Course Description:

This seminar will focus mainly on the basic concepts of finding sample size of different types of sampling techniques. Participants will be exposed to both types of research; the observational studies and experimental studies. A number of practical examples will be discussed.

All participants will get a certificate of participation
