Orientation Program for Pre-Intern Medical Graduates – “Good Intern Program - 2014”

Education, Training and Research Unit of Ministry of Health with the collaboration of Government Medical Officers Association is expected to conduct an orientation training program for pre-intern medical graduates prior to the commencement of their internship training in mid-November 2014.

This is the second step of such training programs which was initiated in 2013 with a tremendous success and much appreciation from all the stakeholders. This is scheduled to be held as an annual event in the future. The prime objective of this initiative will be to prepare and empower the pre-interns for an internship period with a culture of Good Medical Practice which is comprised of improving 4 domains, i.e. Knowledge, Skills and Performance, Quality and Safety, Communication, teamwork and participation and Maintaining Trust. Ultimate goal of this is to create a generation of self-satisfied Intern Medical Officers with competence, compassion and optimum patient care.

This year's "Good Intern Program" will be held from 13th to 16th November at Kularathne Hall – Ananda College Auditorium – Colombo, and pre-interns need to be registered at the "medicalintern.lk" web site before 4th November 2014.

We would be much obliged if you can inform the pre-intern medical graduates of your faculty and ensure their participation for this training program. It will enable us to successfully conclude this training initiative and to cater to a maximum audience through this capacity building exercise.

Dr. 
 Deputy Director General
 Education, Training and Research

Cc:

1. Secretary – Ministry of Health
2. Director General of Health Services
3. President – GMOA
