

INTRODUCTORY CLINICAL PROGRAMME- Batch 2020/21

Day 1 (Physical)

08.05.2023 Monday

8.00 am - 8.30 am	Introductory Clinical Appointment (Overview of the programme and objectives) Prof Vasanti Pinto / Prof SAM Kularatne/Prof AUB Pethiyagoda - East Lecture Theatre	
8.30 am - 9.30 am	History taking in Medicine - Prof SAM Kularatne East Lecture Theatre	
9.30 am - 10.30 am	History taking in obstetrics - Dr Eranthi Samarakoon East Lecture Theatre	
10.30 am - 10.45 am	Break	
10.45 am - 11.30 am	History Taking in Surgery - Prof Arinda Dharmapala- East Lecture Theatre	
11.30 am - 12.30 pm	History Taking in Paediatrics - Prof. Heshan Jayaweera East Lecture Theatre	
12.30 pm - 1.15 pm	Lunch time	
1.15pm - 2.00 pm	History Taking in Psychiatry - Dr Nilantha Balasooriya- East Lecture Theatre	
Video Demonstration in History Taking with Clinical Reasoning	2.15 pm - 3.15 pm	Surgery - Dr. Manjula Peiris- East Lecture Theatre
	3.15 pm - 4.15 pm	Medicine - Dr Chathurika Dandeniya East Lecture Theatre

Day 2 - (Physical)

09.05.2023 Tuesday

8.00 am - 9.00 am	Lecture and video Demonstration on General examination (Medicine) - Prof. Thilak Jayalath - East Lecture Theatre
9.00 am - 9.30 am	Break
9.30 am - 11.30 am	Lecture and video demonstrations on General Examination (Paediatrics) Prof. Pathum Dissanayake - East Lecture Theatre
11.30 am - 12.15 pm	Lunch
12.15 pm - 2.15 pm	Lecture on Examination of CVS (Medicine) - Prof. Udaya Ralapanawa Lecture and video demonstration on examination of abdomen Professor Shenal Thalgahagoda East Lecture Theatre

INTRODUCTORY CLINICAL PROGRAMME- Batch 2020/21

Day 3 (Physical)

10.05.2023 (Wednesday)

8.00 am -10.00 am	Lecture and demonstration of Examination Respiratory System (Medicine) – Dr. Duminda Yasaratne – Lecture and video demonstration on Examination of Respiratory system (Paediatrics) - Prof. Thushara Kudagammana East Lecture Theatre
10.00 am – 10.30 am	Break
10.30 am – 11.30 am	Introduction to Radiology & Medical Imaging (Radiology) Dr Jeevani Uduphille East Lecture Theatre
11.30 – 1.00 pm	Lunch
1.00 pm.- 4.00 pm	Lecture on Examination Abdomen (Medicine) - Prof. Shamali Abeyagunawardena Video demonstration of Abdomen- demonstration -[Medicine- Dr. Ruwanthi Bandara - Lecture and video demonstration on examination of CVS – (Paediatrics)- Dr. Vasana Kiridana East Lecture Theatre

Day 4 (Physical)

11.05.2023(Thursday)

8.00 am – 10.00 am	Lecture and demonstration on Examination of CNS 1 (Medicine) – Prof. Manoji Pathirage Lecture and video Demonstration of CNS 2 - Lower limbs (Paediatrics) - Dr. S. Krishnapradeep East Lecture Theatre
10.00 am – 10.30 am	Break
10.30 am - 12.30 am	Lecture on CNS II (Medicine) Cranial nerves– Prof. Manoji Pathirage Lecture and video demonstration on CNS I Cranial nerves (Paediatrics) – Prof. Pathum Dissanayaka East Lecture Theatre
12.30 am – 1.00 pm	Lunch
1.00 pm – 2.00pm	Lecture on examination of hernia, lumps ,ulcers Dr Jeewantha Rathnayake East Lecture Theatre
2.00 pm – 4.00 pm	1/3 of batch (Group A) to visit Prof unit for practice (this group will be further divided to 3 subgroups) Prof BS /Dr.SMN/Dr.KG 1/3 of Batch (Group B) + half of the Group C will be allocated to Essential Skill training – Anaesthesia and Critical Care 1/3 – (Half of the Group C) off

INTRODUCTORY CLINICAL PROGRAMME- Batch 2020/21**Day 5 - (Physical)****12.05.2023 (Friday)**

8.00 am – 9.00 am	Demonstration in History Taking with Clinical Reasoning Gyne - Prof. Chathura Rathnayake East Lecture Theatre
9.00 am – 10.00 am	Demonstration of Examination of Obstetric patient Dr Eranthi Samarakoon East Lecture Theatre
10.00 am – 10.30 am	Break
10.30 am – 11.30 am	Demonstration of on Gynaecological Examination- Prof. Chaminda Kandauda East Lecture Theatre
11.30 am – 1.00 pm	Lunch
1.00 pm – 4.00 pm	1/3 of batch (Group B) to visit Prof unit for practice (this group will be further divided to 3 subgroups) Prof AD/Dr JR/Dr MP
	1/3 of Batch (Group A and Half of the Group C) will be allocated to Essential Skill training – Anaesthesiology and Critical Care
	1/3 – (Half of the Group C) off

Day 6 - (Physical)**13.05.2023 (Saturday)**

9.00 am-12 noon	1/3 of batch (Group C) to visit Prof unit for practice (this group will be further divided to 3 subgroups) Prof. AUBP /Dr. BD/ Dr. MH
	(Group A and B) off

INTRODUCTORY CLINICAL PROGRAMME- Batch 2020/21

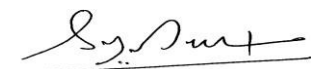

From 15th to 18th May 2023- Time 8-12 am- Teaching Hospital, Peradeniya

	15.05.2023 Day 7	16.05.2023 Day 8	17.05.2023 Day 9	18.05.2023 Day 10
Group 1	Medicine	Surgery Dr. KG	Paediatrics	Gyn & Obs
Group 2	Gyn & Obs	Medicine	Surgery Prof. BS	Paediatrics
Group 3	Paediatrics	Gyn & Obs	Medicine	Surgery Dr. MP
Group 4	Surgery Prof. AD	Paediatrics	Gyn & Obs	Medicine

- Department will arrange teaching sessions (around 60 students is include in each list and departments will make subgroups accordingly)

Day 11 - (Physical)**19.05.2023 (Friday)**

8.00 am -9.00 noon	New born examination -Dr Priyanga Demawatawa <i>East Lecture Theatre</i>
9.15- 11.15 am	Coordinated by Clinical Coordinators Prof SAM Kularatne, Prof AUB Pethiyagoda, Prof T Kudagammana MSGOP orientation (Medicine/Obs & Gyn/Paediatrics/Surgery) Dr Chaturika Dandeniya - Medicine Dr MC Gihan - Obs & Gyn Prof PV Dissanayake - Paediatrics Dr Kesara Ratnatunga - Surgery <i>East Lecture Theatre</i>

Professor SAM Kularatne
Clinical Coordinator

Professor AUB Pethiyagoda
Clinical Coordinator

OBJECTIVES OF THE I CLINICAL PROGRAMME

2020/21 Batch

Two weeks programme- Physical

The following knowledge, attitudes and skills should be acquired by the students during the appointment. The students should:

1. understand the importance of punctuality, courtesy, respect to patients and clean attire.
(patient centeredness)
2. get a basic understanding of how the hospitals function
3. be able to interview and examine a patient in a patient centered manner and document the findings.
4. understand basic medical ethics and communication skills

The above is the first step taken to achieve the wider goals of Clinical training in
Medicine

Objective of the Medical course and all the clinical appointments the learners should
be able to

1. take a full history and do a complete physical examination.
2. formulate a comprehensive summary of the clinical evaluation.
3. know the meaning of clinical problems and have to identify them.
4. identify the problems based on clinical findings.
5. analyse the clinical findings and arrive at a differential diagnosis/diagnosis
6. plan appropriate investigations for management of the patient
7. perform bed side examination/ procedures under supervision
8. plan and execute (under supervision) appropriate tests and bed side examinations.
9. propose a management plan for the patient and execute the same under supervision.
10. demonstrate a thorough theory knowledge on the common conditions
11. apply the theory knowledge to the care of patient management.
12. carry out emergency management

Some hard facts to be known about clinical teaching/learning in Year 2,3,4 and 5

The following will give you an understanding about clinical environment and how to learn from it.

Teaching volume will not be uniform across the different units or at different times in the same unit. However, by working in different units during the clinical rotation you will have an ample opportunity to see all types of patients to learn from and around.

Patients are human beings with different attitudes, concepts and different physical and mind frame. They are not duty bound to co-operate with you. You must respect them and try to work along rather than withdrawing from 'difficult' patients.

Busy clinical work may not allow you to have comfortable and protected reading time. So read whenever or wherever possible. Doctors have to work long hours and so would be for medical students. You will have to learn your theory around your patients not solely from the book.

Students should possess the following:

1. Overcoat/scrubs /Name badge
2. Equipment for proper clinical assessment
i.e. stethoscope/reflex -hammer/torch/tape etc.
3. Recommended books:
Hutchinson's Clinical Method
Hamilton Beily's Physical Signs in Clinical Surgery
Ten Teachers – for Obstetrics & Gynaecology (section on history taking and examination)
Illustrated textbook of Paediatrics (Section on history taking examination)

Duration of the course Introductory clinical appointment : 02 weeks

Framework

Areas to be covered in a comprehensive, full time, integrated 02 weeks appointment

1. The clinical method a) History & examination
 b) The identification of clinical problems based on above
2. The History taking process
 - Attention to physical environment and introductions and asking opening question, effective listening and summarizing (setting an agenda)

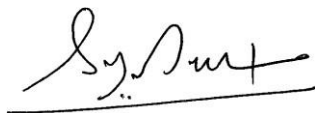

- Gather information according to agenda
 - Presenting complaint and the duration
 - Subsidiary complaints and the duration
 - History of presenting complaints; sequence of events
 - Systems review
 - Past history
 - Family history
 - Drug history, drug allergy
 - Personal Social & Occupational history
 - Patients perspectives (ideas, concerns, emotions, experiences and expectations)

3. Examination

1. General examination
2. Cardiovascular system
3. Respiratory system
4. Abdomen (including genitalia and groin)
5. Nervous system
 - Higher functions
 - Cranial nerves
 - Motor system
 - Sensory system
 - Co-ordination
6. Muscular skeletal examination
7. Mental state & emotional state
8. Special examination-Ulcers, lumps
9. Examination of newborn baby
10. Obstetrics & Gynaecology examination

CONTENT OF THE HISTORY WHAT STUDENT SHOULD RECORD

1. Introduction: name, age, gender, occupation, level of education and family background
 2. Reasons for the consultation; presenting complaint/s and duration
 3. Sequence of events and symptom analysis; history of presenting complaints (according to agenda)
 4. Relevant system analysis
 5. Patient perspectives (ideas, concerns, experiences, emotions, expectations)
 6. Examination findings
 - a. General examination (include assessment of height and weight)
 - b. Finding of system examination as relevant
 - c. *Growth and development*
 - d. *Obstetric assessment or gynaecological assessment*
 - e. *Assessment of mental status*
 7. Diagnosis/differential diagnosis
 8. List of problems
 - a. Biomedical perspectives
 - b. Patient perspectives
 9. Plan of management
 10. Explanation and planning with patient
4. know the meaning of clinical problems and have to identify them.

Professor S A M Kularatne
Clinical Coordinator

Batch 2020/21
