|-------------|----------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------|----------------------------------|--------------------------------|
| 8.00-9.00   | Adrenal cortex and medulla<br><b>Physiology Lecture</b><br>Prof. ASA                                                                         | Endocrine pancreas and diabetes mellitus<br><b>Physiology Lecture</b><br>Prof. SDIN                                                           | PUBLIC HOLIDAY                    |                                  |                                |
| 9.00-10.00  |                                                                                                                                              |                                                                                                                                               |                                   |                                  |                                |
| 10.00-10.15 | TEA BREAK                                                                                                                                    |                                                                                                                                               |                                   |                                  |                                |
| 10.15-11.15 | Other hormones<br><b>Physiology Lecture</b><br>Prof. ASA                                                                                     | Reproductive and Endocrine Functions<br>SGD<br><b>Prof. PD and all Physiology staff</b>                                                       | PUBLIC HOLIDAY                    |                                  |                                |
| 11.15-12.15 | <b>Physiology reading time</b>                                                                                                               |                                                                                                                                               |                                   |                                  |                                |
| 12.15-1.15  | LUNCH BREAK                                                                                                                                  |                                                                                                                                               |                                   |                                  |                                |
| 1.15-2.15   | Physical examination of the nervous system- Cranial nerves<br><b>Physiology PD</b><br><b>Prof .PD &amp; all Physiology staff</b><br>Gr. 1-10 | Physical examination of the nervous system- Cranial nerves<br><b>Physiology PD</b><br><b>Prof .PD &amp; all Physiology staff</b><br>Gr. 11-20 | PUBLIC HOLIDAY                    |                                  |                                |
| 2.15-3.15   |                                                                                                                                              |                                                                                                                                               |                                   |                                  |                                |
| 3.15-4.15   |                                                                                                                                              |                                                                                                                                               |                                   |                                  |                                |

Chairperson  
Curriculum Co-Ordinating Committee  
Faculty of Medicine  
University of Peradeniya

## **2022/2023 Bach Year 2 Semester 1 Final Timetable**

### **Module & Module Co-ordinators**

**Venue for Lectures: Physiology Lecture Theater**

**MED 2111 - Neuroanatomy, Head and Neck Module - Dr. Keerthie Dissanayake**

**MED 2112 - Neuro-endocrine Functions, Excretion and Reproduction Module - Prof. Padmini Dahanayake**

**MED 2113 - Applied Biochemistry - II Module - Prof. CNRA Alles**

**MED 2114 - Personal and Professional Development - 3 Module - Prof. C. Dalugama**

**MED 2115 - Integrated Applied Medicine 1C Module - Prof. V. Pinto**

### **Name and the Department s of the teachers involved in the teaching programme:**

#### **Department of Anatomy**

Dr. KD - Dr. Keerthie Dissanayake (Head)

Dr. JD - Dr. JK Dissanayake

Dr. HA - Dr. HA Amarathunga

Dr. LP - Dr. LYV Pathirana

Dr. WK - Dr. W Kosgallana

Dr. JJ - Dr. Jayamini Jayarathne

Dr. SJ - Dr. Sumudu Jayawardana

#### **Department of Physiology**

Prof. PD - Prof. P Dahanayake (Head)

Prof. TD - Prof. T Dassanayake

Prof. SDIN - Prof. SDI Nanayakkara

Prof. ASA - Prof. AS Ariyasinghe

Dr.DN - Dr. Damsara Nandadeva

#### **Department of Biochemistry**

Prof. CNNRAA - Prof. CNRA Alles (Head)

Dr. WITF - Dr. WIT Fernando

Dr. SPRPP - Dr. SPRP Premathilake

Dr. AWDTA - Dr. AWDT Ambagaspiya

#### **Department of Radiology**

Prof. BH - Prof. B Hewavithana

#### **Department of Surgery**

Prof. MP - Prof. M Peiris

#### **Department of Medicine**

Prof. CD - Prof. C. Dalugama -

#### **Visiting Lecturer**

Prof. RMM - Prof. R Mudiyanse

Dr. Zafarullah Wazeer

Dr. T. Udupihille

#### **Department of Anesthesiology**

Prof. V. Pinto
